New York Stock Market

New York, September 15 .- Fluctus than during the erratic movements of recent days. The nervous tension of yesterday was relaxed, and there was definite improvement in sentiment The change arose largely from the cessation of pressure from abroad Europe bought back some of the semarket, London's balance of purchases probably reaching 25,000 shares. Ad vices from European capitals were more cheerful, and there was no trace of a renwal of liquidation. Despite the ket, it was apparent that the dominant factors in the financial world had not aggressive bullish positions. The rise in prices in the latter part nd the demand so insistent that it was felt that a buying movement of large dimensions might have been initiated. But no effort was made to-day to bring about another sustained advance. After about another sustained advance. After an irregular opening, the market be-come heavy. Declines amounted to a point or more for Union Pacific, Cana-dian Pacific, Northern Pacific, Reading and a few other standard shares, but and a few other standard shares, but the majority of stocks lost only frac-tions. There followed a recovery which placed most of the list above yesterday's close. Gains were as small as the earlier losses, and during the remainder of the day the market moved within narrow limits. Trading fell far below the previous day, and net changes were slight.

within marrow limits.

below the previous day, and net changes were slight.

Uncertainty as to developments abroad was pointed out as the chief restrainty feature. Many traders took the view that the long decline has exaggerated the possible effect of any unfavorable conditions in this country, but that doubt as to what might grow out of the srained relations of European powers prevented an extended upward movement at this time. Until a definite settlement of the Moroccan question is reached securities undoubtedly will be handled with the greatest care. A sharp attack at the market late in the day showed also that the bear party is still to be reckoned with. New Haven recovered four and a half points of its decline to-day. Western Union developed strength, following the favorable quarterly report of the company. National Biscult was exceptionally weak, breaking five points, and Minneapolis and St. Louis, which reduced the continued and the position was against 17.50 lates against 11.44 in 11.45 lide 11.45 li pany. National Biscuit was exceptionally weak, breaking five points, and Minneapolis and St. Louis, which recently advanced on the announcement that it was to lease the Ohio Central and form part of a new route from Canada to the Gulf of Mexico, relapsed eight points.

The weekly statement of the countries diagrams was distinctly encourtries diagrams was distinctly encourtries.

The weekly statement of the country's clearings was distinctly encouraging. Exchanges increased more than 15 per cent. over the corresponding wek of last year, the gain being especially marked in the East and South. Reported movements of currency during the week indicate a small cash gain. Gains made from the late. cash gain. Gains made from the inte-rior were partly balanced by losses to the sub-treasury, and a net gain of about \$2,000,000 is indicated.

about \$2,000.000 is indicated.

The money market reflects the placing of loans in Germany. Notwithstanding heavy liquidations of securities both for domestic and foreign account, the time money market is working definitely harder.
